affinity™ series

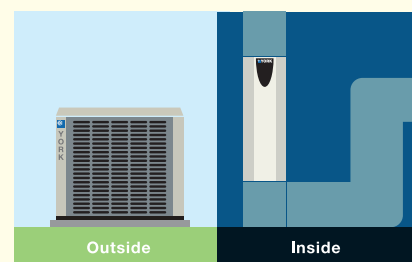

AIR HANDLER

*At York, we think the best kind of air handler is one you never have to think about. So we designed our Affinity™ Series Air Handler to deliver exceptional performance year after year. Designed to match perfectly with your air conditioner or heat pump, the Affinity Air Handler efficiently circulates cool air through your home in the summer and cozy, warm air in the winter. Your home stays comfortable and quiet, and superior indoor air quality is a given. Why? Because York has it handled.*

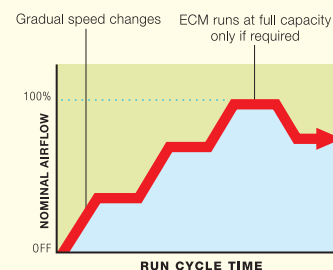

## The single-piece air handler—part of your complete comfort system.

Your air conditioning or heat pump system actually has two parts: an outdoor unit and an indoor unit. The indoor air handler is crucial to circulating comfortable air throughout your home year-round. When matched to your outdoor unit, the Affinity Air Handler delivers exceptionally efficient performance, complete comfort and extended system life.

## Keep temperatures constant with ECM technology.

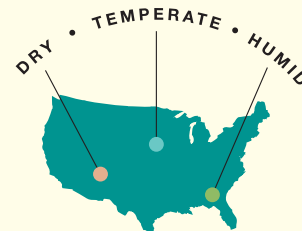

The Affinity Air Handler features a variable-speed design built around York's own electronically commutated motor (ECM). That means fan speed gradually changes to efficiently circulate air for longer periods of time. So warm air never becomes trapped in a room's ceiling. Also, extended run times at lower speeds help control humidity, enhance energy efficiency and reduce sound levels. Your home's temperature—and your family's comfort—remains constant.

*Extended run times at reduced speeds help to control humidity and reduce noise.*

## State-of-the-art technology, specifically for your state.

Only the Affinity Series offers you models with ClimaTraK™ technology. So your York Dealer can customize your air handler's settings to match your personal comfort requirements. That translates into efficient, constant indoor comfort whether you live in a dry, humid or temperate area.

*Your York Dealer can customize settings to optimize comfort.*

## The prescription for healthier air.

As part of the Affinity Series of heat pumps and air conditioners, our air handler is also engineered to improve indoor air quality. Our Rx technology keeps water, mold and other contaminants out of your home's system. Rx technology consists of:

- MicroBlue™ coil coating—Effectively and efficiently removes condensate and water buildup on the coil
- Dual opening drain line—Ease of condensate removal
- Foil faced insulation—Enhanced IAQ capability
- Variable-speed blower operation with ClimaTraK™—Quiet, efficient blower operation

*The Affinity Series with Rx technology keeps your home healthy.*

# Affinity™ Air Handler

MODEL	DESCRIPTION	TONNAGE RANGE	WARRANTY
<b>AVY</b>	Single-Piece, Multiposition Air Handler	1 1/2 – 5 Ton	Limited 5-Year Parts Warranty

## How to stay comfortable for years to come.

York and your York Dealer are proud to offer the YorkCare™ Comfort Plan. It's designed to maintain your system as well as your peace of mind. With up to 10 years of total coverage available, you can ensure your unit is effective and efficient for years to come.

What's more, your York Dealer offers maintenance agreements that provide upkeep while maximizing the warranty provisions. Ask about the YorkCare™ Comfort Plan. A little extra coverage is always a comforting idea.

## Long story short: the history of York design.

You've probably enjoyed York engineering for years without even knowing it. We have, after all, designed and implemented heating

and cooling systems in some of the world's most famous structures, including the U.S. Capitol building, India's Taj Mahal, the Sydney Opera House, the entire U.S. Navy

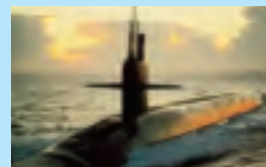

nuclear submarine fleet, and even venues such as your local mall and corner bank.

■ There's a reason people trust us with the big jobs. We've been doing this a long time. Over 130

years, in fact. In that time, we developed the first successful room air conditioner and cooled the world's first theater, hotel and office building.

We're constantly leading the industry in our design and our technology. And our commitment has earned our products

the Good Housekeeping Seal of Approval. No matter what the scale, chances are we've developed an efficient, durable and effective solution for it.

■ Which is all a way of saying this: You can depend on York to give you the choices you're looking for and

the designs that will keep you comfortable year-round, year after year.
